REASON FOR ALLOWANCE

Applicant's amendment and response filed on 11/28/2008 are acknowledged and entered.

In view of the remarks, the 112 rejection stands withdrawn.

Claims 24, 29-33, 38-53 and 57-60 were pending. Applicants have amended independent claims 24, 33, 42, 49, 57 and 58, and canceled claims 1-23, 25-28, 34-37, 54 and 55. Therefore, claims 24, 29-33, 38-53 and 57-60 are currently pending.

Applicant's arguments, see pages 13-17, filed on 11/28/2008, with respect to the amended claims 24, 33, 42, 49, 57 and 58 have been fully considered and are persuasive. The rejections of claims 24, 29-33, 38-53 and 57-60 have been withdrawn.

Claims 24, 29-33, 38-53 and 57-60 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to independent claims 24, 33 and 42, the prior art of record does not fairly teach the claimed "wherein the memory stores programming instructions that, when executed by processing unit, cause the processing unit to: (a) receive display preferences regarding multiple displays; (b) determine whether the display preferences can be fulfilled in observance of configuration properties of the multiple displays and configuration properties of a computing system, determine whether a current configuration of the multiple displays to the computing system can be reconfigured such that the display preferences corresponding to each of the multiple displays can be fulfilled while maintaining effective configuration of the current configuration when the display preferences cannot be fulfilled" along with the other claimed limitations.

Art Unit: 2629

With respect to independent claim 49, the prior art of record does not fairly teach the claimed “the coupling controller controlling, in response to configuration properties, operative to access to predetermined screen memory portions by the plurality of display drivers, the coupling controller further operative to control in response to the configuration properties, coupling of predetermined screen memory portions to the plurality of display controllers, wherein the configuration properties cause the coupling controller to couple a first display driver of the plurality of display drivers to a first and a second screen memory portion of the plurality of screen memory portions” along with the other claimed limitations.

With respect to independent claim 57, the prior art of record does not fairly teach the claimed “wherein the memory stores programming instructions that, when executed by the processing unit, cause a coupling controller of the processing unit to determine whether display preferences regarding multiple displays that display image information at the same time can be fulfilled in observance of configuration properties of the multiple displays and configuration properties of a computing system, and determine whether a current configuration of the multiple displays to the computing system can be reconfigured such that the display preferences can be fulfilled while maintaining effective configuration of a current configuration when the display preferences cannot be fulfilled” along with the other claimed limitations.

With respect to independent claim 58, the prior art of record does not fairly teach the claimed “determining whether received display preferences can be fulfilled in observance of configuration properties of the multiple displays and configuration properties of a computing system; determining whether a current configuration of the multiple displays to the computing system can be reconfigured such that the display preferences of the multiple displays can be

Art Unit: 2629

fulfilled at the same time while maintaining effective configuration of a current configuration when the display preferences cannot be fulfilled; and displaying the image of a portion thereof on the multiple displays at the same time” along with the other claimed limitations.

Claims 29-32, 38-41, 43-48, 50-53 and 59-60 are dependent claims are also allowable under same reasons as discussed for independent claims 24, 33, 42, 49, 57 and 58.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
